

UNIVERSITY OF ENGINEERING AND TECHNOLOGY MARDAN

Department: Computer Sceince

Course: Mobile App Develepment

Submitted By: Rifaq Ajmal

Registration No: 23MDBCS435

Submitted To: Mr. Danyal

Stream: Computer Science (Section A)

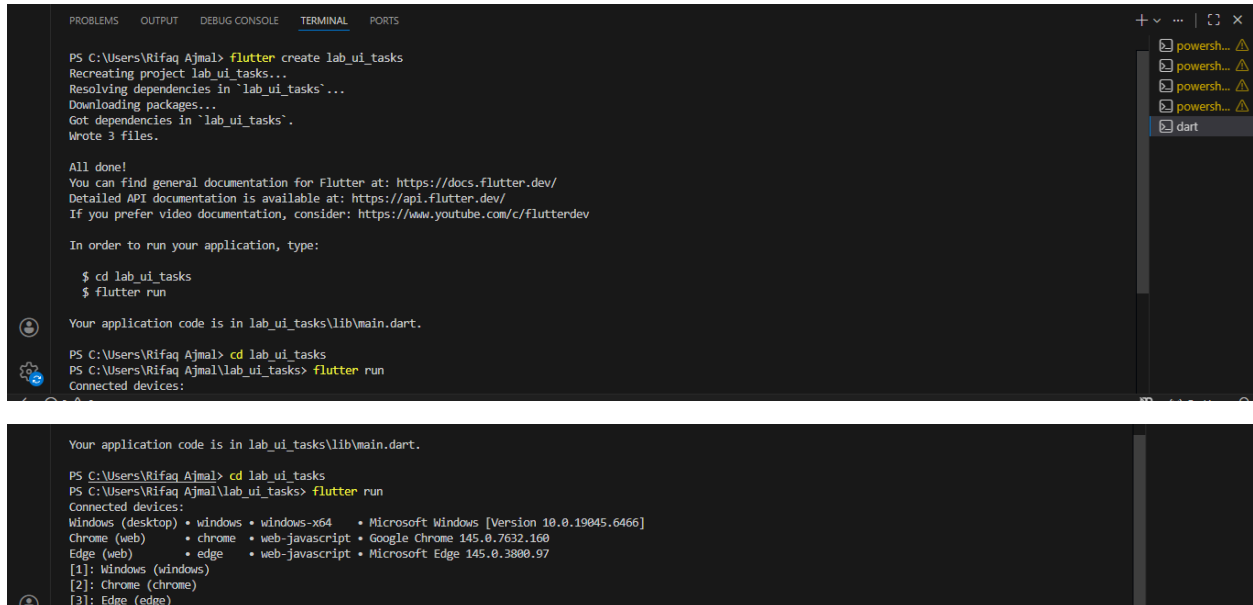

Date : 3 Feb 2026

Lab : 4

Step 1 : Go into the Project Folder

Typing this command In Terminal:

- `cd lab_ui_tasks`

The first screenshot shows the terminal output of the command `flutter create lab_ui_tasks`. It displays the process of recreating the project, resolving dependencies, and downloading packages. It also provides links to Flutter documentation and instructions on how to run the application. The second screenshot shows the terminal output of the command `flutter run`. It lists the connected devices (Windows desktop, Chrome web, Edge web) and the selected device (Chrome web). It then shows the command `flutter run` being executed and the application starting to run on the selected device.

```
PS C:\Users\Rifaq Ajmal> flutter create lab_ui_tasks
Recreating project lab_ui_tasks...
Resolving dependencies in `lab_ui_tasks`...
Downloading packages...
Got dependencies in `lab_ui_tasks`.
Wrote 3 files.

All done!
You can find general documentation for Flutter at: https://docs.flutter.dev/
Detailed API documentation is available at: https://api.flutter.dev/
If you prefer video documentation, consider: https://www.youtube.com/c/flutterdev

In order to run your application, type:

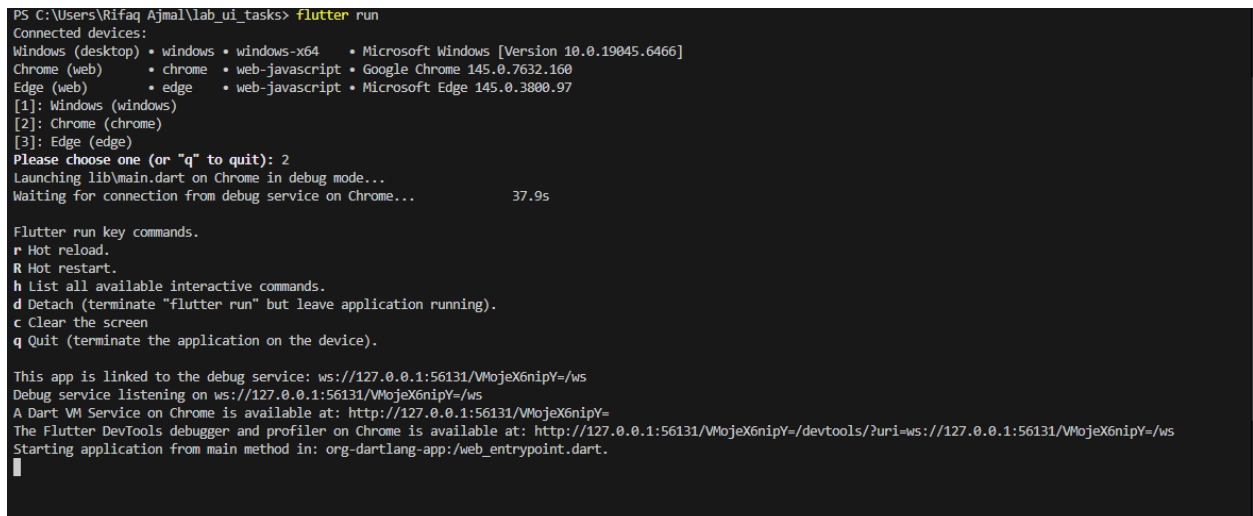

$ cd lab_ui_tasks
$ flutter run

Your application code is in lab_ui_tasks\lib\main.dart.

PS C:\Users\Rifaq Ajmal> cd lab_ui_tasks
PS C:\Users\Rifaq Ajmal\lab_ui_tasks> flutter run
Connected devices:
Windows (desktop) • windows • windows-x64 • Microsoft Windows [Version 10.0.19045.6466]
Chrome (web) • chrome • web-javascript • Google Chrome 145.0.7632.160
Edge (web) • edge • web-javascript • Microsoft Edge 145.0.3800.97
[1]: Windows (windows)
[2]: Chrome (chrome)
[3]: Edge (edge)
```

Step 2 : Run the Flutter App / Just For Checking

- `flutter run`

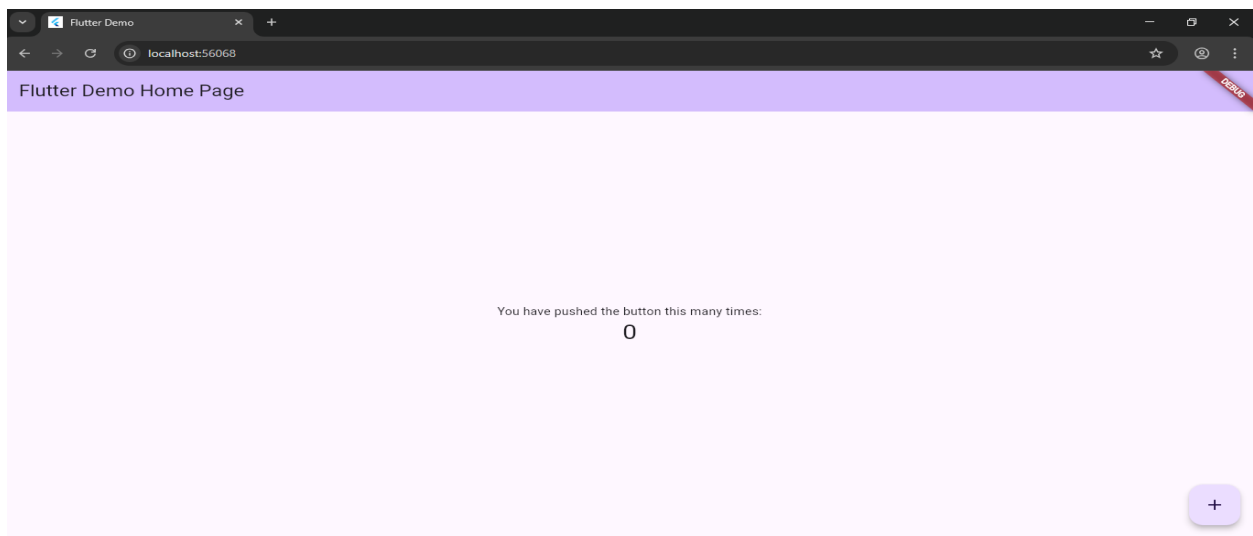

The screenshot shows the terminal output of the command `flutter run`. It lists the connected devices (Windows desktop, Chrome web, Edge web) and the selected device (Chrome web). It then shows the command `flutter run` being executed and the application starting to run on the selected device. The output includes the Flutter run key commands and the application's status.

```
PS C:\Users\Rifaq Ajmal\lab_ui_tasks> flutter run
Connected devices:
Windows (desktop) • windows • windows-x64 • Microsoft Windows [Version 10.0.19045.6466]
Chrome (web) • chrome • web-javascript • Google Chrome 145.0.7632.160
Edge (web) • edge • web-javascript • Microsoft Edge 145.0.3800.97
[1]: Windows (windows)
[2]: Chrome (chrome)
[3]: Edge (edge)
Please choose one (or "q" to quit): 2
Launching lib\main.dart on Chrome in debug mode...
Waiting for connection from debug service on Chrome... 37.9s

Flutter run key commands.
r Hot reload.
R Hot restart.
h List all available interactive commands.
d Detach (terminate "flutter run" but leave application running).
c Clear the screen
q Quit (terminate the application on the device).

This app is linked to the debug service: ws://127.0.0.1:56131/VMoJeX6nipY=/ws
Debug service listening on ws://127.0.0.1:56131/VMoJeX6nipY=/ws
A Dart VM Service on Chrome is available at: http://127.0.0.1:56131/VMoJeX6nipY=
The Flutter DevTools debugger and profiler on Chrome is available at: http://127.0.0.1:56131/VMoJeX6nipY=/ws
Starting application from main method in: org-dartlang-app:/web_entrypoint.dart.
```

Flutter is running succesfully

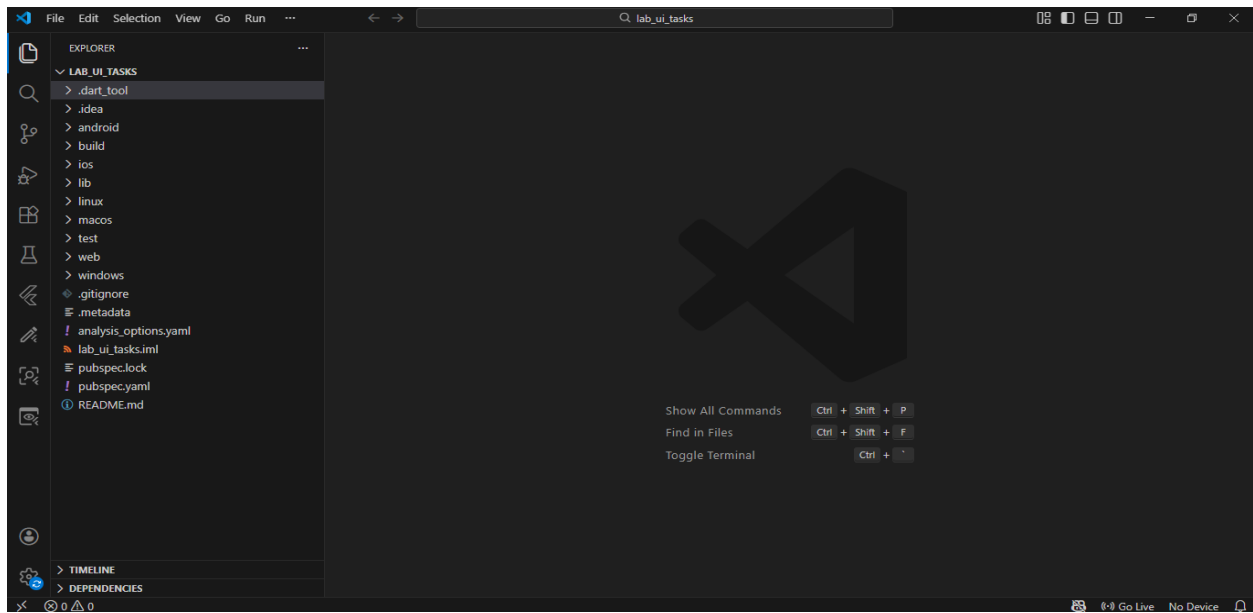

STEP 3 : Opening the Project in Visual Studio Code

Inside VS Code:

- 1.Click File
- 2.Click Open Folder
- 3.Go to

- C:\Users\Rifag Ajmal\lab_ui_tasks

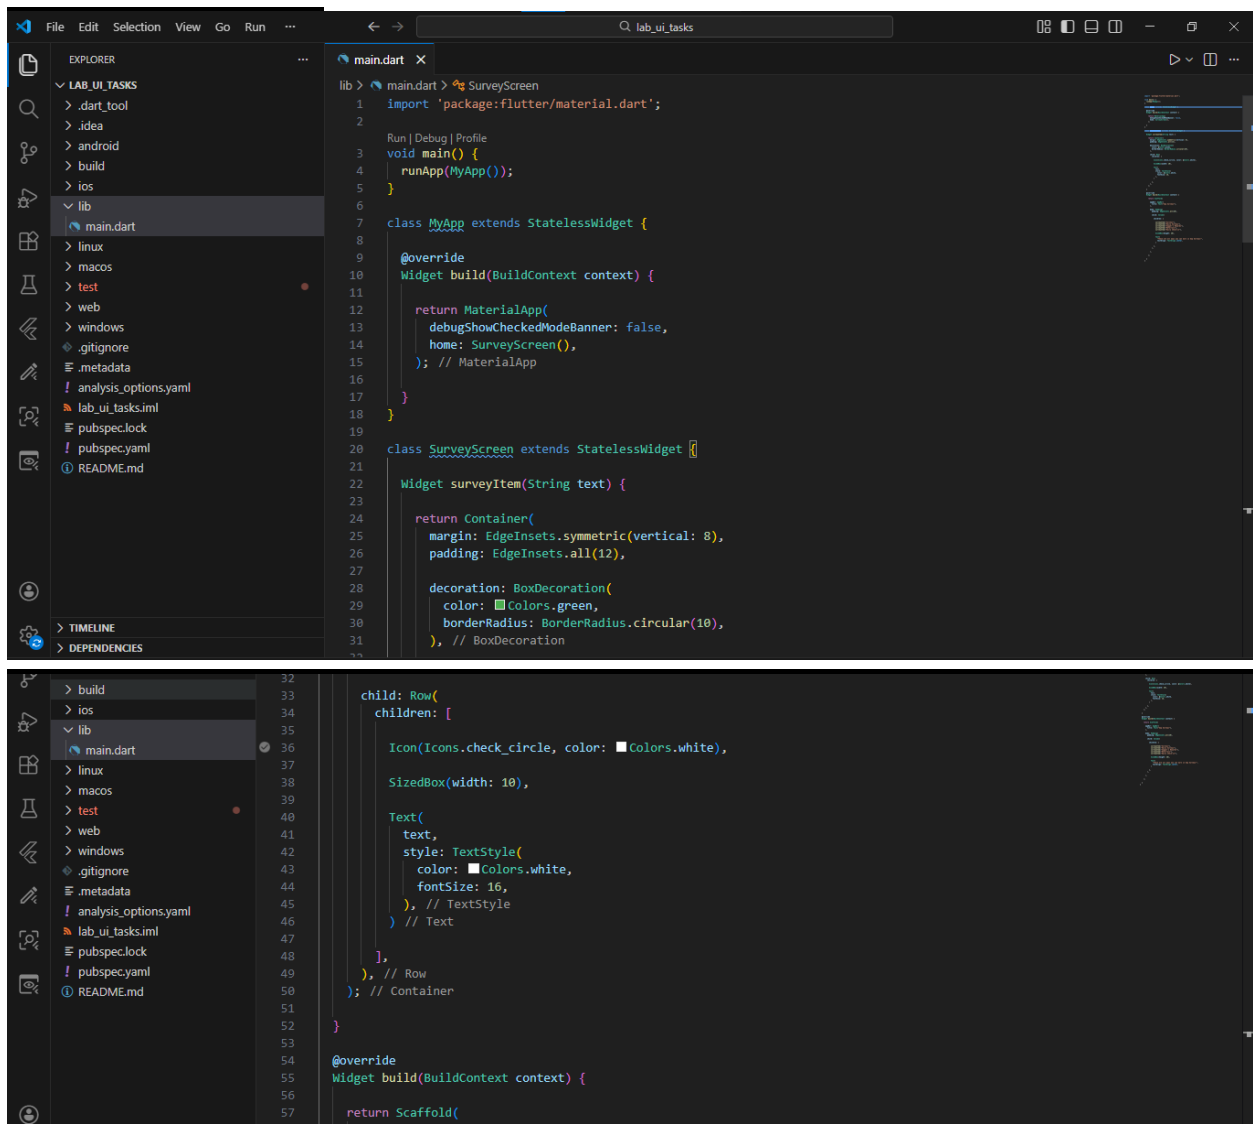

STEP 4 : Opening the lib Folder

- On the left sidebar
- Click the arrow beside
- lib
- main.dart

we'll replace the default program with our new code..

Task 1 Code

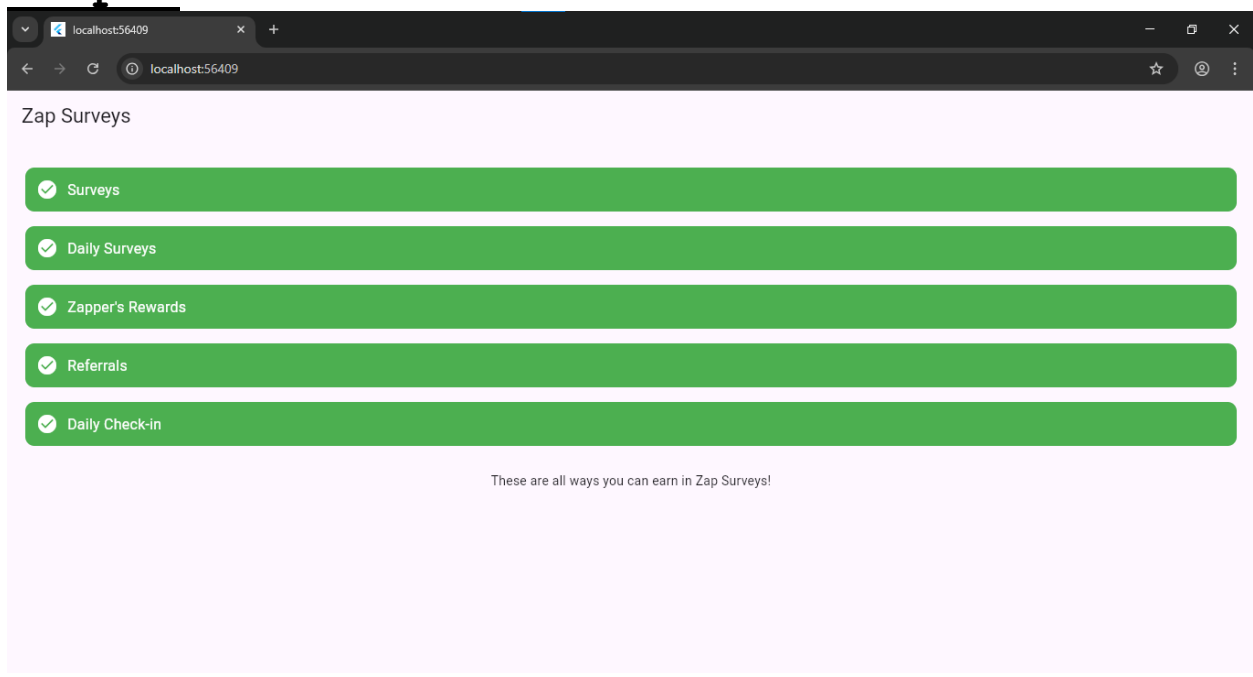

```
58
59
60 appBar: AppBar(
61   title: Text("Zap Surveys"),
62 ), // AppBar
63
64 body: Padding(
65   padding: EdgeInsets.all(20),
66
67   child: Column(
68
69     children: [
70
71       surveyItem("Surveys"),
72       surveyItem("Daily Surveys"),
73       surveyItem("Zapper's Rewards"),
74       surveyItem("Referrals"),
75       surveyItem("Daily Check-in"),
76
77       SizedBox(height: 20),
78
79       Text(
80         "These are all ways you can earn in Zap Surveys!",
81         textAlign: TextAlign.center,
82       ) // Text
83
84     ],
85   ), // Column
86 ), // Padding
87 ); // Scaffold
88
89
90
91
```

Now run this

```
PS C:\Users\Rifaq Ajmal\lab_ui_tasks> flutter run -d chrome
```

Output

Go again into main.dart and replace the code with the new code of Task 2

Task 2 Code

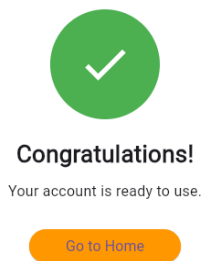

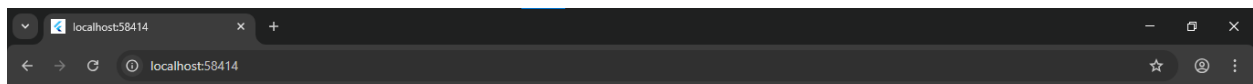

```
lib > main.dart > SuccessScreen
1  import 'package:flutter/material.dart';
2
3  Run | Debug | Profile
4  void main() {
5    runApp(MyApp());
6  }
7
8  class MyApp extends StatelessWidget {
9    @override
10   Widget build(BuildContext context) {
11     return MaterialApp(
12       debugShowCheckedModeBanner: false,
13       home: SuccessScreen(),
14     ); // MaterialApp
15   }
16
17   class SuccessScreen extends StatelessWidget {
18     @override
19     Widget build(BuildContext context) {
20       return Scaffold(
21         backgroundColor: Colors.white,
22
23         body: Center(
24           child: Column(
25             mainAxisAlignment: MainAxisAlignment.center,
26             children: [
27
28               CircleAvatar(
29                 radius: 60,
30                 backgroundColor: Colors.green,
31                 child: Icon(
32                   Icons.check,
33                   size: 60,
34                   color: Colors.white,
35                 ), // Icon
36               ), // CircleAvatar
37
38               SizedBox(height: 20),
39
40               Text(
41                 "Congratulations!",
42                 style: TextStyle(
43                   fontSize: 26,
44                   fontWeight: FontWeight.bold,
45                 ), // TextStyle
46               ), // Text
47
48               SizedBox(height: 10),
49
50               Text(
51                 "Your account is ready to use.",
52                 style: TextStyle(
53                   fontSize: 16,
54                 ), // TextStyle
55               ), // Text
56
57               SizedBox(height: 30),
58
59               ElevatedButton(
60                 onPressed: () {},
61
62                 style: ElevatedButton.styleFrom(
63                   backgroundColor: Colors.orange,
64                   padding: EdgeInsets.symmetric(
65                     horizontal: 40,
66                     vertical: 15,
67                   ), // EdgeInsets.symmetric
68                 ),
69
70                 child: Text(
71                   "Go to Home",
72                   style: TextStyle(fontSize: 16),
73                 ), // Text
74               ), // ElevatedButton
75
76             ], // Column
77           ), // Center
78         ), // Scaffold
79       );
80     }
81   }
```

Running Flutter

- `flutter run -d chrome`
-

```
PS C:\Users\Rifaq Ajmal\lab_ui_tasks> flutter run -d chrome
Launching lib\main.dart on Chrome in debug mode...
Waiting for connection from debug service on Chrome... 31.1s
```

Output

Congratulations!

Your account is ready to use.
